Rent or Buy?

Consider the benefits of homeownership

Did you know if you're paying \$1,700 per month in rent, you could actually be living in a home worth \$300,000 with little to no money down? Currently renting a home? Here's how much you're paying:

1 Month Rent	Per Year	Per 5 Years
\$1,700/month	\$20,400/yr	-\$102,000/5yr
\$1,900/month	\$22,800/yr	-\$114,000/5yr
\$2,100/month	\$25,200/yr	-\$126,000/5yr
\$2,200/month	\$26,400/yr	-\$132,000/5yr
\$2,350/month	\$28,200/yr	-\$141,000/5yr

Reasons Why You Should Buy a Home

Invest for your family, enjoy life.

- **Home appreciation and equity.** Your home should gain value over the years.
- **Tax benefits.** Mortgage interest is tax deductible.
- **This home is yours!** Paint, decorate and renovate as you wish!
- **Rent goes up!** Your fixed rate mortgage payment stays the same.
- **Lifestyle flexibility.** Owning a home can mean backyard fun, privacy and pets!

Need more reasons to buy?

Call your local housing experts to explore your home buying options.

PTSD Awareness Month

Six percent of the population will have PTSD at some point in their lives, but there are resources and support to aid in this invisible fight. Talk therapy, eye movement desensitization and reprocessing treatment and medications are all proven techniques in reducing the body's response to traumatic memories. It is never too late to reach out for help; a doctor can connect you with the right treatment for you. Know you are not alone, remembering that you are not your triggers.
