Job change?

Whether retiring or changing jobs, you'll want to know your retirement account options.

There are four potential options for your 401(k) when leaving an employer:

- Leave it in your former employer's 401(k) plan, if allowed by the plan.
- Move it to your new employer's 401(k) plan, if you've changed employers and your new employer plan allows for it.
- Roll the account over to an individual retirement account (IRA).
- Cash it out, which is subject to potential tax consequences.

We can talk through your financial goals and find the option that works best for you.
